

Policy for Flowers at the Southern Maine Veterans' Cemetery

Planting of trees, shrubs, or flowers by any person other than the Superintendent is prohibited. No structure of any type may be erected or placed in the cemetery by family members. Items not specifically permitted by regulation will not be left on graves, niches or elsewhere in the cemetery. The staff will remove prohibited structures or objects.

Fresh cut natural flowers may be placed on a grave or at the niche at any time. Artificial arrangements are only allowed on the graves during winter months. However, they are not allowed on the niche walls because they stain the niche covers.

Burial floral arrangements may be displayed on the day of interment for one week. **Wreaths and baskets made of both natural and artificial greens will be allowed from November 1 to March 31.**

Niche Walls: The area at the base of the niche wall is designed to be used by visitors that wish to leave flowers in accordance with this flower policy. Families may also purchase stainless steel flower vases to have installed on the niche cover through the **Southern Maine Veterans' Cemetery Association.** These vases can be removed and secured by the family when not in use; they are not guaranteed against loss or damage. They are designed to hold a small arrangement or spray; the spray must not interfere or obstruct the engraving on other niche covers. They are only for natural flowers; anything else (small flags or artificial flowers) can stain the cover and is not allowed.

Living Potted Plants may be displayed on a grave or at the niche wall for a period of **two weeks**, one week prior to, and the week of Memorial Day. **All living plants and arrangements must be removed by the last Sunday of that two-week period. Southern Maine Veterans' Cemetery is not responsible for missing or damaged plants and/or arrangements.**

Inexpensive floral containers should be used when leaving flowers at the cemetery. All containers will be removed by cemetery personnel at the expiration of permissible periods or when flowers fade or wither. The staff will recycle plastic and metal vases and store them in containers placed around the cemetery for use by visitors.
